

MyShare: Platinum Demerger

Paying the tax due on your Valterra Platinum shares

You will need to pay some dividend tax
on the Platinum Valtterra shares you've received.

To work out how much dividend tax you will need
to pay, follow the steps below.

We've added Matt's story as an example to guide you.

Calculating the tax due

1. Check how many Platinum Valterra shares you received

Computershare will provide you with a Demerger and Consolidation Post Event Notification on the landing page of the EquatePlus portal detailing how many Platinum Valterra shares you received: 110 for every 1075 Anglo American shares held on 30th May.

Before the Platinum demerger, Matt held **73.19** Anglo American shares.

For every **1,075 Anglo American shares** held on 30th May, Matt received a distribution of **110** Platinum Valterra shares.

This means Matt received **7.489** Platinum Valterra shares.
 $110/1,075 \times 73.19 = 7.489$

2. Calculate the total value of your Platinum Valterra shares

To do this, multiply the number of Platinum Valterra shares you received by the price that these were worth on 30 May 2025, the day of the demerger: ZAR 704.72.

Matt multiplies his 7.489 Valterra Platinum shares by ZAR 704.72 to work out their total value.

The Valterra Platinum shares are worth **ZAR 5,277.65**
 $\text{ZAR } 704.72 = \text{ZAR } 5,277.65$.

3. Calculate the taxable value of your Platinum Valterra shares

To do this, divide the total value of your Platinum Valterra shares by the FX rate, which is 20.294 ZAR : 1 EUR.

This is the amount you will need to report and pay dividend tax on.

Matt divides the total value of his Platinum Valterra shares, ZAR 5,277.65, by 20.294 ZAR to work out their taxable value.

Matt will need to report and pay dividend tax on **EUR 260.06**
 $\text{ZAR } 5,277.65 / 20.294 = \text{EUR } 260.06$

How to report and pay the tax due

The receipt of the Valterra shares is subject to dividend tax. The amount subject to tax is 85% of the value of the Valterra shares received, minus expenses such as commission.

The tax rate is 30% if your total capital income does not exceed EUR30,000 per year; and 34% for amounts above EUR 30,000.

You should report the Valterra shares as dividend income on your tax return for the 2025 tax year. This can be done by editing the pre-completed tax return via the MyTax-portal or by filling in form 16B “Statement on foreign income (capital income)” in hard copy. You may also apply for advance tax to be paid on the dividend income to avoid payment of residual tax and potential late payment expenses via the MyTax-portal.

Tax filings in respect of the tax year, must be submitted by April of the following year (i.e. a tax return for 2025 must be submitted by April 2026). Tax return filing dates can vary, and you should confirm the filing date on the pre-completed tax return, which is normally received during March.

You can find more information about the Valterra Platinum demerger and the tax implications on our [Share Plans Hub](#).

Please note, this information is given as a guide, for illustrative purposes only, and it is your responsibility to ensure that you are comfortable with the value which you use to report and pay taxes, including the FX rate applied.

If you are in any doubt about any matters, including but not limited to financial, taxation and legal matters, referred to in this information or their application to your own specific circumstances, you are recommended to seek your own independent financial, tax and legal advice from an appropriately authorised independent professional advisor.
